When you are in uniform with this band you are representing this school. Every band member should be conscious of their behavior and how their behavior reflects upon the entire program whether it is a football game or competition. Your actions will be seen by many people and interpreted. Please treat your uniform with respect. Band members treat it like your instrument; guard members treat it like your flag or weapon. Our school has a reputation to build and maintain. Starting out solid and full of pride will intimidate other bands. Represent Landstown High School the way you know it should be represented. This means taking pride in what you do and how you do it.
